

Smart Construction Groupware 2026.6.1 (Scheduled) Release Notes

- The Smart Construction Groupware update will be released as follows.

Release: Mon, June 1 (JST) 19:00–22:00

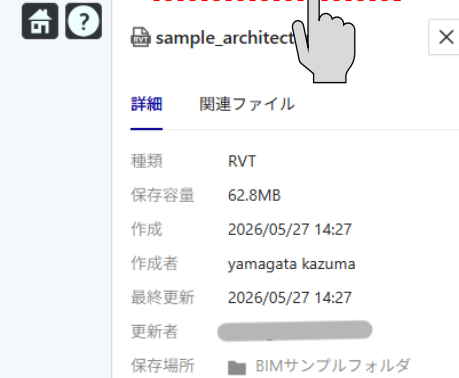

NO.	Feature	Overview	Details
1	BIM Model Viewer	Feature improvement. For viewing major BIM file formats, Cesium ion-based viewing is now supported. Viewing via Autodesk Platform Service is also still available.	Please refer to the explanation on the following pages.

No.1

- Viewing of major BIM file formats now supports viewing with Cesium ion.

- You can switch between Autodesk and Cesium from the panel in the upper right.
- By default, the display uses Autodesk as before.
